Quality Policy

Computer Controls AG is an unrivalled distributor of high-end electronic components, test and measurement instruments and systems and leading service provider for repair and calibration in Switzerland and in Eastern Europe. The company combines professionalism and state-of-the-art technology to deliver tailored solutions and faultless projects.

Our Quality Policy is defined and strongly motivated by our quality objectives, which reflect our management principles, behaviors and values:

- Listen to our customers' needs, desires and requirements and offer tailored solutions.
- Deliver on our promises.
- Establish mutually beneficial supplier relationships with exceptional partners who have outstanding manufacturing experience and practical knowledge in their field.
- Empower and educate every employee, to remain abreast of the latest trends and continually enhance our know-how and skills.
- Take responsibility for own actions in the workplace, encourage one another to be proactive, and explore new paths.
- Ensure that our policies and procedure manuals reflect what we actually do.
- Regularly review and expand our Integrated Management System based on ISO 9001:2015 and ISO 14001:2015, drive continuous improvement and creative innovations through efficient business processes, carefully chosen metrics and best practices.
- Communicate this policy throughout the organization. Support every Computer Controls AG team member in meeting or exceeding customer needs and expectations with best-in-class solutions, products and services.

The Quality Policy will be reviewed by the Computer Controls AG Management Team every December.
